INTRODUCTION

Xipat from the Rainforest!

My name is Maíra Irigaray, and I am the founder of INSamaúma, an organization dedicated to creating transformative experiences through immersive Rainforest programs in the Brazilian Amazon. Our work blends deep connections with nature, personal growth, and community building. My journey began many years ago, traversing various paths that now lead me to integrate science and spirituality in a space where transformation starts from within, but first and foremost, allow me to introduce myself...

I am the great-granddaughter of an indigenous woman, born in Brazil, on the banks of the Araguaia River. I worked as a lawyer and activist in the Amazon and later as a PhD in Geography of Indigenous Resistance for over 16 years, but I felt in my heart that I needed to take a bigger step.

INSamaúma was born from a dream to build a place of connection to self, others, and nature. Located by the enchanting Tapajós River, our programs offer a unique blend of Rainforest immersions, wellness co-creation, and indigenous-led initiatives. We aim to support the harmonious reconnection between people and Mother Earth through experiences that foster mindfulness, healing, and personal transformation.

CONCEPT OVERVIEW

The Experience:

Our vision is to integrate your wellness workshops/retreats with our immersive Rainforest experiences, enriched by indigenous wisdom and guided by local shamans.

By combining your expertise in wellness with the profound knowledge and traditions of indigenous communities, we offer participants a transformative journey into the heart of the Amazon Rainforest.

This unique collaboration allows for deep connections with nature, spirituality, and self, fostering an unparalleled environment for personal growth and healing.

TESTIMONIALS

Maira combined her deep knowledge following years of experience as an activist and lawyer on the frontlines of indigenous rights, with tenderness and care of long-held relationships to create an intentionally curated, inspiring and nourishing experience. The result was unforgettable.

Alice Aedy - Co-Funder & Director of Earth Rise Studio

This trip is impossible to sum up. The variety and sheer amount of stunning, unforgettable moments on this trip is staggering. Each and everyday there were countless "Oh wow"s and disbelief we were able to share in the beauty and community of the Amazon. We were welcome in our open ceremony with the Shaman Nato and were welcomed and invited to begin our experience. From forest walks, crystal clear waters, quiet mornings, the ancient trees to being able to connect with local indigenous communities- This was the trip of a lifetime. I feel lucky knowing that we got to participate and share in this and bring back our experiences and connections to share with people back home. Thank you :)

Alexander Calvert - Hollywood Actor

I honestly don't even know where to begin with my praise of the Amazon experience curated by Maira. From the moment I set foot on the sands of the Tapajós everything was an absolutely impeccable and honestly magical experience, in the most genuine sense of the word. Through Maira's years of activism and involvement in the community, learning and studying the people and culture of the area, she has amassed a breadth of knowledge and incredible network of people that she passionately shared with us. A life highlight.

Scottie Thompson - Actor. Writer. Producer

I write about a lot of depressing things, and it's true, these times are urgent and the threats very real. But I feel its important to share the joy and beauty with you all, also... Thank you Maira Irigaray for the beautiful Tapajos Immersion experience. There is so much work to be done here but it's so important to always remember WHY we do what we do.

Nathalie Kelley - Hollywood actress and activist
